

U.S. Cities population (over 50%) [African American](#) or [Black](#)

[http://en.wikipedia.org/wiki/List\\_of\\_U.S.\\_counties\\_with\\_African\\_American\\_majority\\_populations](http://en.wikipedia.org/wiki/List_of_U.S._counties_with_African_American_majority_populations)

The following is a list of [United States](#) cities, towns, and unincorporated areas ([Census Designated Places](#)) in which a **majority (over 50%) of the population is [African American](#) or [Black](#)**, according to data from the [2000 Census](#). This list does not include cities such as [Philadelphia, Pennsylvania](#) in which, according to the 2000 Census, merely a [plurality](#) (as opposed to a majority) of the residents are African American. The list below is organized by [state](#) and, within each state, by population size. The percentage of each city's population that is African American is listed in parentheses next to the city's name.
